

Where was the best day of your life?

Chances are it was at a park, theater, arena, hotel or other entertainment venue. Hotels and entertainment venues are places where we go to have fun, but too often they are vulnerable to physical and cyber attacks.

Our team understands the challenges you face, and has designed integrated security systems and cyber response plans to secure these facilities with little or no patron impact.

ELECTRONIC SECURITY SYSTEMS

We design, integrate, and support comprehensive physical security solutions to protect your assets.

Trofholz Delivers:

- Security Assessments and Surveys
- Access Control Systems
- Intrusion Detection Systems
- Video Surveillance/CCTV
- Physical Security Information Management Systems (PSIMS)
- Structured Cabling
- Force Protection

CYBER SECURITY

We secure our critical information from intrusion using the best practices from the National Institute of Standards and Technology (NIST).

Trofholz Delivers:

- Security Control Assessments
- Information Assurance (IA)
- Cyber Security
- Risk Management Framework (RMF)
- Logical Security
- Protection of Personal Health Information (PHI)

DIVISION 27 AND 28
